

# ADITYA KASHID

## React Native Developer — IT Engineering Student

Nashik, Maharashtra (Currently Surat, Gujarat)

aadityakashid21@gmail.com — +91 97308 59883 — [adityakashid21.github.io/aditya-portfolio](https://adityakashid21.github.io/aditya-portfolio)

## Summary

---

IT Engineering student specializing in React Native development with a strong focus on building practical, production-style mobile applications. Experienced in integrating Firebase and Supabase, implementing offline-first features, and designing automation workflows using n8n. Passionate about solving real-world problems through clean UI, structured logic, and reliable system design.

## Technical Skills

---

**Primary:** React Native, JavaScript, TypeScript

**Frontend:** React.js, Redux, Expo

**Backend:** Node.js, Express.js, REST APIs

**Backend Services:** Firebase (Auth, Firestore), Supabase

**Automation:** n8n, Webhooks, API Integrations, WhatsApp Automation

**Tools:** Git, PDFKit, AsyncStorage

## Projects

---

### ThinkList — Student Learning Companion App

*React Native, Firebase, AsyncStorage*

- Built a mobile application to centralize study materials and academic resources for students.
- Implemented offline-first access to ensure usability without continuous internet connectivity.
- Designed a clean, distraction-free interface focused on learning productivity.

### Gurukul Tracker — Tuition Management App

*React Native, Firebase, Firestore, PDFKit*

- Developed a tuition management app handling attendance, fee tracking, and study materials.
- Automated PDF receipt and marksheet generation, reducing manual administrative effort.
- Streamlined daily academic operations through a single mobile platform.

### SkillSwap — Skill Exchange Platform

*React Native, Node.js*

- Built a peer-to-peer platform enabling users to exchange skills without monetary transactions.
- Implemented user profiles, messaging features, and basic matching logic.

### Business Automation Workflows

*n8n, REST APIs, Webhooks*

- Designed automation workflows for data synchronization, notifications, and system integrations.
- Replaced repetitive manual processes with API-driven automation logic.

## Education

---

### B.Tech in Information Technology

2023 – 2027

Uka Tarsadia University, Bardoli, Gujarat

## Certifications

---

### Technology Job Simulation — Deloitte (Forage)

Jun 2025

Hands-on experience in software development and problem-solving through an industry-style simulation.

### Hack With Gujarat — State-Level Hackathon

2025

Participated in a 36-hour hackathon focused on building practical technology solutions.
